September 4, 2003

The **Journey's Inn** is located at 1025-US Highway One, in The Town of Lake Park. It is the only hotel/motel within the town limits. Upon taking over command I initially visited this establishment when an individual committed suicide on the premise. Since then I have visited this location on numerous occasions in an effort to clean it up.

The management staff has been very receptive and helpful in our endeavor. Unfortunately, this location has been a drain on police services particularly on the evening shift. I have several pages of police calls/service since October of 2001. The count stands at 861 and this doesn't include the adjacent properties or locations.

Several months ago I noticed a different type of clientele hanging out at the **Journey's Inn**. Upon doing my homework I discovered that part of the hotel (south building) was being rented-out as a **drug rehabilitation** location. I found this to be very interesting since the town never approached me for any input. In passing this information onto the town I discovered that they were unaware and that is why no information was exchanged.

Let me assure you that I believe in **drug rehabilitation**. It is a necessity in this day and age and I will personally assist any and all worthwhile programs. The problem is that I have an obligation to the Town of Lake Park and its residents to enhance the quality of life in Lake Park. I don't feel that it was appropriate to place the fox in the hen house without proper notification and approval.
